

What does space food taste like?

In class 1 we bought some real astronaut space food to try.

The food came in bags and didn't feel like the food that was written on the label.

Each bag contained different foods. There were

- Strawberries
- Bananas
- Grapes
- Chocolate chip ice-cream
- Mint choc chip ice-cream
- Neapolitan ice-cream
- Cookies and cream ice-cream
- Ice-cream sandwich

When we looked inside we found all the food was dry and we discussed how the food had all of the liquid sucked out of it. This was called freeze dried.

Bannana

Grapes

Strawberries

Choclote chip

Neapolitan

Mint choc chip

Ice-cream sandwich

Cookies & cream

We all tried the different flavours and had to discuss two different things.

1. Did it taste like the real unfreeze-dried food?
2. Did we like the taste or not?

What does space food taste like?

As we tried each flavour we discussed whether they tasted as we expected and whether we liked them.

The ice-cream flavours were our favourite followed by the strawberries.

The grapes and bananas split the group with some liking them and others saying they were not very nice.
